

OPTIONAL FORM NO. 10

UNITED STATES GOVERNMENT

Memorandum

TO :
Visibility Laboratory

DATE: 1 April 1964

STAT

FROM :

STAT

SUBJECT: Photographs *JWC*

Dear Jim,

Enclosed are some of the pictures we discussed last week. We have been unable through all of our microscope techniques to bring out the numbers on the tail of the aircraft. We would appreciate your giving these photos a try using your technique. You will note that the negatives are grainy and the image of interest is extremely small.

Per our agreement I must have the pictures back to me by April 13. Please airmail them registered to me at the following address:

STAT

Again, please note that my name is to be only on the inner envelope. Good luck with the pictures. I will be sending you additional samples in the near future and hopefully we won't have the same time constraints.

Pictures were received at the Laboratory on 6 April 1964. There were 5 - 35mm frames (negatives). The film was Tri--X Pan.

Rough Prints were made at roughly 13X enlargement to orient ourselves to the contents of the pictures.
